Southeastern Massachusetts Alzheimer's Partnership

Our shared mission with the Alzheimer's Association is to eliminate Alzheimer's disease and other dementias through advancing research, enhancing care and support for those affected, and promoting brain health to reduce risk. Focusing on local Southcoast resources, our members—personally and professionally connect to individuals with Alzheimer's and their caregivers. We work to share information, support families, including a respite grant that provides financial assistance, and ensure access to needed services. We are seeking dedicated partners to join us as we work together towards a world without Alzheimer's Disease.
